Certificate of Internship Completion

This is to certify that Pronob Bhattacharjee (25565017), an M.Tech. Artificial Intelligence student at the Mehta Family School of Data Science and Artificial Intelligence (MFSDSAI), IIT Roorkee, successfully completed an internship under my supervision during June–July 2026.

During the internship, Pronob Bhattacharjee worked on the project *"Stitch: Robust Appearance-Invariant Visual Place Recognition for Anchoring Social AR Content in the Real World"*. The project aims to recognise a real-world location reliably, even when the lighting or viewing angle changes, so that augmented-reality (AR) content can be placed accurately at that location. As part of this work, Pronob Bhattacharjee designed and evaluated a recognition pipeline that combines deep-learning-based image retrieval, robust feature matching and geometric verification. The work also extended the system to depth-aware 3D placement of AR content and optimised the models for efficient deployment on mobile devices.

I appreciate the sincere efforts and contributions made during the internship and wish Pronob Bhattacharjee all the best for future academic and professional endeavors.

Sincerely,

Dr. Balasubramanian Raman, BOYSCAST Fellow
Guest Professor, IDAKS, Osaka Metropolitan University, Osaka, JAPAN
Professor (HAG) and Head
Department of Computer Science and Engineering
Joint faculty, Mehta Family School of Data Science and Artificial Intelligence
